

Site Review – AccuWeather

Homepage: Clean layout, clearly displays current location weather, easy-to-use search bar.

Navigation: Sidebar menu and dropdowns work correctly. Navigation links redirect to expected pages.

Content: News, Videos, and Health sections are well-organized. Text and visuals are readable and consistent.

Functionalities: Search (empty, invalid, valid), Video section, Newsletters, Data Suite, API reference, Contact Us, Forensics links are functional.

User Experience:

- Smooth scrolling and clickable elements.
- External links open in new tabs where appropriate.
- Minor improvement: loading speed of video section could be optimized.

Overall Assessment:

AccuWeather is functional and user-friendly. All major features work as expected; site is ready for standard user interactions.
